

## Grow Their Business While Growing Your Income!

Introducing our Merchant Cash  
Advance Program

Give your clients the opportunity to access fast and flexible funding through a Merchant Cash Advance (MCA), while earning extra income for yourself with each approved referral. MCAs provide merchants with quick access to capital, flexible repayment options based on daily sales, and no fixed monthly payments—making it an ideal solution for managing cash flow. With no collateral required and a simple application process, your clients can use the funds for any business need, whether it's expansion, covering expenses, or new investments. Help their business grow while benefiting from a rewarding payout for every successful referral!

### Two Convenient Options to Earn Extra Income

#### Option 1

Simply refer your merchant to Suede, and we'll handle the rest. We'll reach out to your referred merchant and keep you informed throughout the entire cash advance process.

Bonus: 40% of net revenue income

#### Option 2

Provide your merchants with a Merchant Cash Advance by using our referral link, and work directly with our MCA partner. This creates a seamless connection between you and the merchants you refer.

Bonus: Based on your residual split
