

TAP Into Payments on your Terms

A Smarter way to Offer Modern POS Devices without
Upfront Cost or Friction.

Turn “Too Expensive” into “Where Do I Sign?”

The Terminal Access Program (TAP) makes modern POS hardware simple and affordable, no upfront cost, one low monthly price, and built-in protection through EdgeGuard.

Designed to reduce friction, boost approvals, and deliver a premium merchant experience.

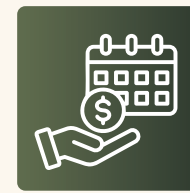

Make Checkout Faster, Cleaner, and More Reliable

The Terminal Access Program, TAP, lets merchants upgrade to modern payment hardware with no upfront cost and one low monthly price. It delivers a smoother checkout experience and includes built in EdgeGuard protection for added peace of mind.

No Upfront Hardware Cost
Eliminates big purchases

Pay monthly, stay predictable
24-month term

Fast digital enrollment
No paperwork, no hassle

EdgeGuard included
Damage, defects & replacements covered

Better cash flow
More capital kept in their business

Turn Slow Closes into Same Day Closes

For ISOs and Agents, TAP removes the biggest hardware objection by offering modern terminals with no upfront cost and one simple monthly price. It helps deals move faster, boosts approvals, and delivers a more premium merchant experience, while EdgeGuard protection adds confidence and reduces post install headaches.

Removes the “hardware is too expensive” objection

Accelerates approvals + closes deals faster

Reduces onboarding delays

Boosts retention with a premium device experience

Reduce Friction Improve Conversions

A smoother process for merchants.
A faster path to approvals for you.

1 Select the device

2 Add TAP pricing to the application

3 Merchant signs digitally

4 Device ships automatically

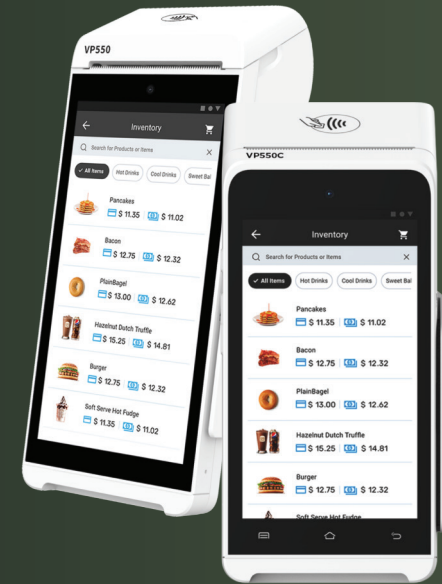

5 EdgeGuard activates — you're done

Low Equipment Prices High Merchant Sales

Our CRM: Full Transparency. Full Control.

The difference between selling payments and owning infrastructure.

Run your Entire ISO Operation from One Dashboard

Our all in one merchant services platform centralizes operations for agents, offices, and ISOs, giving you a streamlined workflow from boarding through residuals. You can manage onboarding, commissions, and ongoing support in one place, while maintaining clear hierarchy and transparency, with an organizational structure that mirrors how real teams actually operate.

Unified Platform for Merchant Services

Manage boarding, residuals, and support in one workspace.

Organizational Hierarchy & Permissions

Reflects real-world ISO, office, and agent structures for secure access.

Integrated Ticketing System

Create, assign, and resolve issues instantly within the CRM.

Transparent Residuals & Reporting

Real-time commission tracking and audit-ready calculations.

Built for Hierarchy and Transparency

YTD Profit	Lifetime Profit		
\$0.00	\$11,762.38		
JNT [1260] - Active			
	Volume	Trans	Avg Tk
	\$698,623.13	15,485	\$49.95
	\$5,908.00	113	\$52.28
	\$8,039.50	131	\$61.37
	\$6,861.10	106	\$64.73
	\$8,625.08	138	\$62.50
	\$9,372.80	141	\$66.47

Clear Date Segmentation

View information by ISO, office, or agent level.

Secure Role-Based Access

Permissions tailored to each organizational layer.

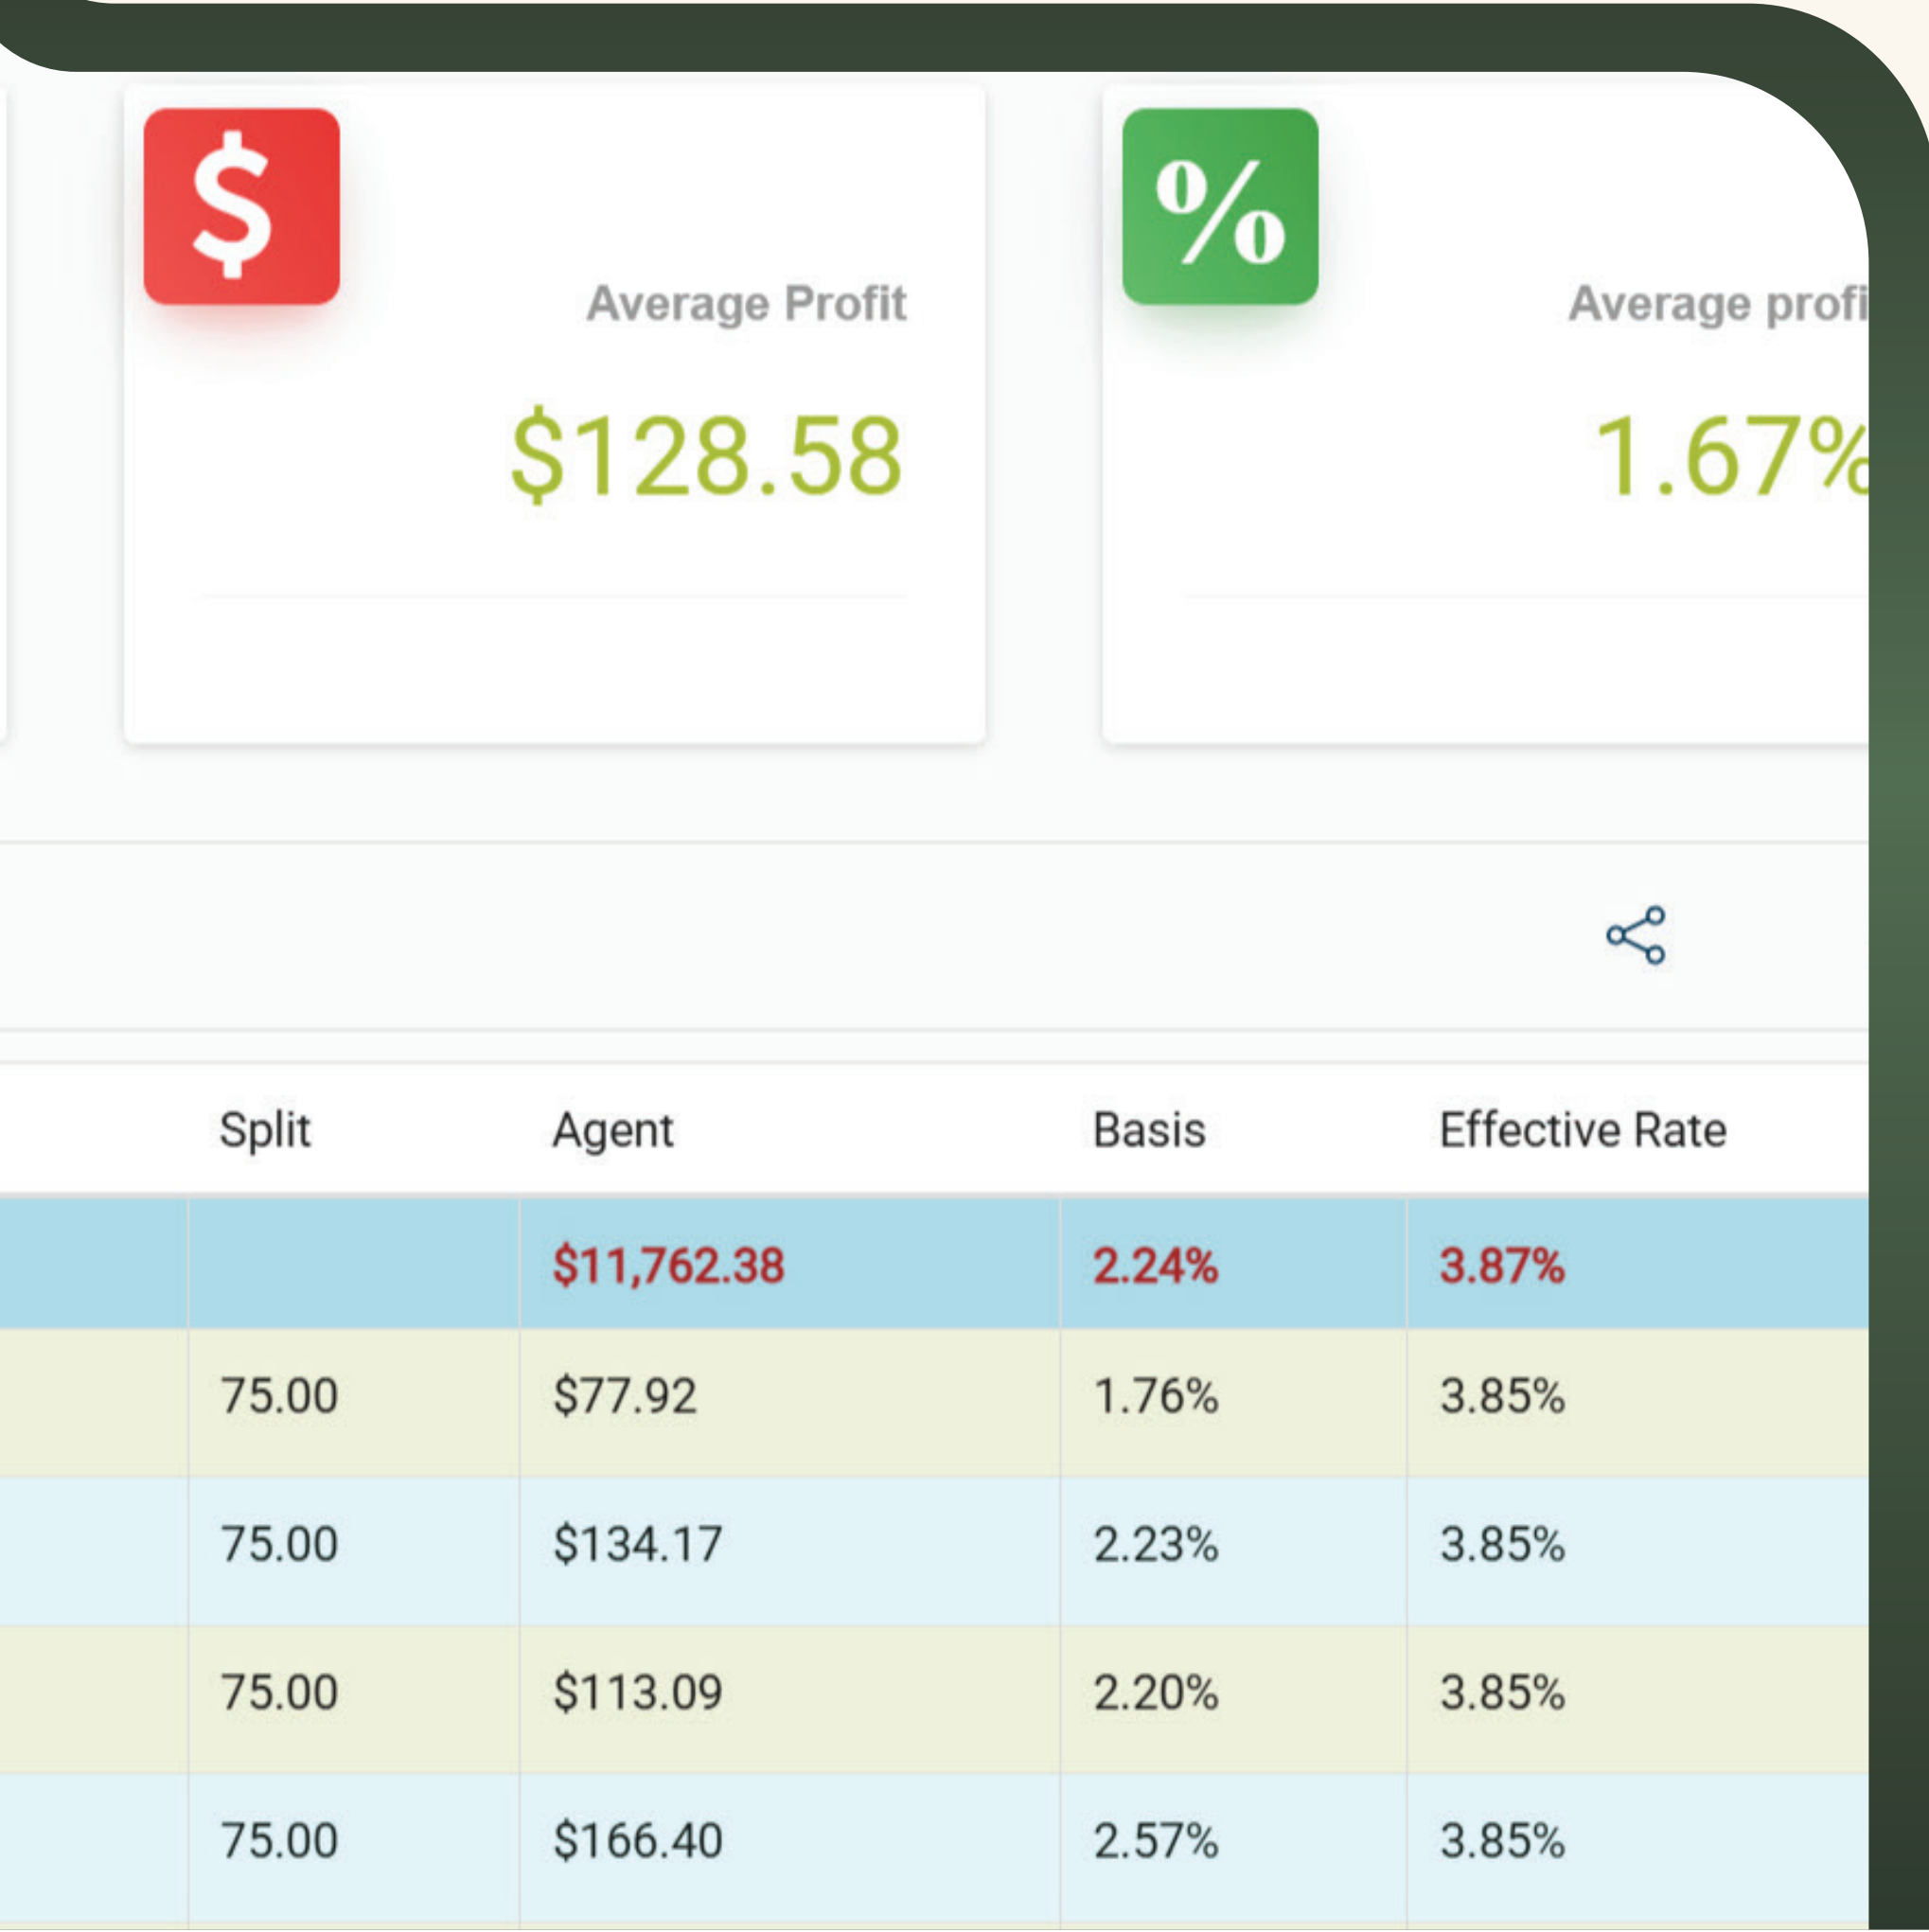

Scalable Oversight

Easily manage growth with hierarchical controls.

Audit-Ready Controls

Track access and changes for full transparency.

Built for Hierarchy and Transparency

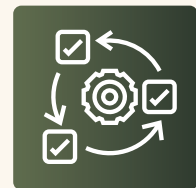

Automated Residual Calculations
All transactions processed with built-in accuracy.

Unified Visibility for Agents & ISOs
Everyone sees the same payout data, reducing disputes.

Real-Time Reporting & Audit Trails
Track commissions and calculations instantly with full history.

Flag Risk Automatically, Protect your Portfolio Proactively

Rapid Ticket Creation

Log and assign issues instantly from your workspace.

Smart Routing & Escalation

Tickets prioritized and sent to the right team for fast action.

End-to-End Issue Tracking

Monitor every ticket until complete resolution is achieved.

Automated Transaction Flagging

Set custom criteria to identify risky activity instantly.

Portfolio Protection Focus

Direct attention to high-risk areas for proactive management.

Efficient Exception Management

Handle flagged cases swiftly, reducing manual review workload.

Measure what Matters, Grow what Works

Our platform combines analytics and training in one place, giving you live dashboards that show how your portfolio is performing, including activations and transaction activity as it happens. You can quickly review agent level performance to understand what is working across your team, then support growth with white label training resources that make onboarding and ongoing education faster and more consistent.

Real-Time Portfolio Dashboards

Monitor activation rates and transaction volumes instantly.

Agent Performance Tracking

Evaluate sales effectiveness and team results in one view.

White-Label Training Resources

Access ready-made materials for fast onboarding and education.

RBO Program

Residual Buy-Out Program (RBO). The Highest Multiple,
with the Strongest Earn Outs.

Unlock the Value of Your Residual Portfolio

Turn monthly residuals into growth capital while earning production earn-outs.

- Sell your residual for a top industry multiple
- Earn outs for future production while you keep selling
- Team up with a MSP that provides capital + tools to scale

Upfront Multiple

30x – 60x

Funded at the right value for the right portfolio.

Production Earn-Outs

Up to 10x

Earn outs for future production on top of the buyout.

Partner to Scale

Capital + Tool

Access funding and resources while growing your business.

Program Requirements

Eligibility & Portfolio Signals

- Minimum residual: \$5,000 – \$150,000 per month
- Volume-based: merchant quantity matters
- Diversified portfolio (shouldn't rely on 2–3 merchants)
- Residual redirects from an other platform accepted
- Increase your multiple with earn-outs up to 10x for new merchant production

How Our RBO Program Works

- 1 Portfolio Review**
Assess volume, diversification, and stability.
- 2 Valuation & Terms**
Multiple + production earn-out structure.
- 3 Funding + Scale**
Receive capital and keep producing for earn-outs.
